Profile

Motivated and Detail-oriented B.Tech Computer Engineer with a strong foundation in programming, software development, and data structures. Experienced in building web applications and management systems using the MERN stack, with a growing interest in data science and analytics. Adept at problem-solving, team collaboration, and fast learning. Passionate about developing efficient digital solutions, analyzing data-driven insights, and continually expanding technical knowledge through hands-on projects

Education

Shah & Anchor Kutchhi Engineering College

2022-2026

Bachelor of Technology (B.TECH.) Computer Engineering & Honours in Data Science

CGPA: 8

Projects

GYM Management System

- **Gym Management System** is a digital platform that manages memberships, tracks training schedules, guides workouts, and handles equipment purchases—streamlining all gym operations in one system.

- **Technologies Used:** MERN STACK

AI-Based Fish Detection System

- Developed an AI-powered system using YOLO-based object detection to identify and classify fish species from underwater images and live video streams with high accuracy.

- Implemented a web application with user authentication, image upload, and real-time detection features for efficient marine data analysis.

- **Technologies Used:** Python, Flask, YOLOv11, HTML, CSS, JavaScript, MySQL

Customer Churn Analysis Dashboard

- Analyzed 10,000+ customer records using SQL and Python to identify key churn drivers and built an interactive Power BI dashboard, cutting manual reporting time by ~40%.

- **Technologies Used:** SQL, Python, Pandas, Power BI

Loan Default Prediction Model

- Built and compared ML models (Logistic Regression, Random Forest) achieving 87% accuracy, and deployed the model as a Streamlit app for real-time predictions.

- **Technologies Used:** Python, Scikit-learn, Stream-lit

Experience

Associate Software Developer Intern | Nimap Infotech LLP: June 2024 – July 2024

During my internship, I assisted in web application development and debugging while collaborating with the development team on various software projects, gaining valuable practical experience in the software and web development lifecycle.

Certifications

- AWS Cloud Practitioner Essentials — AWS Training and Certification.
- Paid Internship and Training Program in AcmeGrade on Web Development.
- Deloitte Australia Data Analytics Job Simulation on Forage - July 2025

Skills

- **Technical Skills:** C/C++, Python, SQL, MERN Stack, Gen Ai & LLM models.
- **Other Software:** Power Bi, Tableau, MS Tools, n8n.
- **Soft Skills:** Communication, Teamwork, Problem Solving, Detailed Oriented, Initiative, Time Management, Adaptability, Multi-Tasking, Creativity
- **Strengths:** Rapid learning, public speaking, leadership under pressure
